PROJECTS & RESEARCH

Independent Equity Research | *Excel, Python, public filings*

Spring 2026

- Built a 3-statement model, DCF valuation, and comparable company analysis on CAVA Group; pitched a long thesis with a \$105 price target supported by a 4x unit growth runway against Chipotle and expanding restaurant-level margins
- Analyzed abnormal returns around earnings announcements for 20+ S&P 500 names using event-study methodology; tested statistical significance and identified patterns across sectors

Trading Pitch – Tufts Trading Club | *Excel, Bloomberg*

Spring 2026

- Pitched a long trade on SBUX to Tufts Trading Club ahead of Q2 FY2026 earnings, arguing the turnaround was inflecting after 7 straight quarters of comp decline under new CEO Brian Niccol
- Grounded the thesis in first-hand observation of campus store closures as part of Niccol's portfolio rationalization strategy; modeled entry at \$82 with a 3-6 month price target of \$98
